

**MALIBU
SMART**

Save water. Live well.

**SAVE
WATER, ENERGY
AND MONEY!**

**MORE THAN 50%
OF RESIDENTIAL
WATER IS USED
FOR IRRIGATION**

Our plants do **not** need potable drinking water.

**SEE UP TO
15% REDUCTION
IN WATER USE**

The use of your graywater is **legal** and **encouraged** to reduce the amount of water heading to your septic system or the sewer.

Learn to use graywater in your smart garden

And Qualify for a Graywater System Discount

L2L GRAYWATER SYSTEM
(Laundry-to-Landscape)

With an L2L graywater system, you can keep your garden beautiful and healthy no matter what the weather.

FREE LAUNDRY-TO-LANDSCAPE (L2L) PROGRAM

Gently used water from your laundry can be safely diverted to water most plants in your garden.

An L2L graywater system lets you:

- Extend the life of your septic system
- Conserve water, energy & money

Average costs for an L2L system:

- \$150-\$250 parts
- \$700-\$2,500 installation

MALIBU SMART IS OFFERING:

- **Free** DIY classes and workshops taught by qualified industry experts:
 - How to safely install and use rain barrels
 - How to safely install and use Laundry 2 Landscape systems
- **Free** at-home consultation and a **\$100 discount** on graywater parts

For more info about the Graywater program, visit westbasin.org/greywater (please note that the website spells graywater with an "e".)
