

all-in-one menu planning solution: Better School Lunches are Just One-Click Away

Cartewheel is an all-around solution for planning and serving school meals. The comprehensive menu fix was specifically designed to facilitate USDA meal-pattern compliance, bridging the gap between state agencies, vendors and schools and simplifying the process of creating healthy, delicious menus to power the minds of the next generation.

Dietitians NOT Mathematicians

Cartewheel removes the barriers to better school lunches by allowing school meal planners to focus on crafting meals for their schools, not on balancing nutrition requirements or digging through dense spreadsheets.

Lunches Kids Actually Enjoy

Simplifying the process of creating healthy, delicious menus that source from the best food suppliers.

connecting the dots for better school lunches:

Cartewheel is revolutionizing how schools plan and serve meals by connecting all aspects of the system for transparency and efficiency.

Instantly check for compliance using our weekly dashboard

Easily track changes on production records to assess success of kitchen staff

Automatically keep and integrate records for simplifying Administrative Review

Cartewheel brings everyone together in one, easy to use system to facilitate compliance and create efficiencies in the following areas:

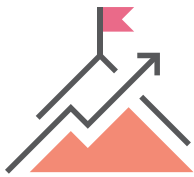

- USDA Meal-Pattern and Nutritional Standard Compliance
- Meal Demand Tracking and Forecasting*
- Inventory Management*
- Meal Planning and Student Preferences
- Commodity Intelligence*
- System-Wide Transparency and Compliance

**This feature is currently under development and will be rolled out in future iterations of the Cartewheel program.*

School lunches shouldn't merely comply - they should be the **foundation** for growing healthy kids.

challenge:

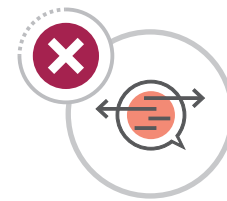

Cartwheel addresses core challenges to the broken school meal delivery system by targeting solutions to the following chronic issues.

NO CONNECTIVITY
There is currently no comprehensive solution connecting the supply chain from the manufacturers to the student's tray.

NO CONSISTENCY
There is no regulatory consistency between state agencies, causing fragmentation and forcing school districts to manage programs through multiple platforms.

NO COMMUNICATION
The national program is fragmented and managed independently by state agencies, school districts and school sites with little communication.

a new solution:

Cartwheel delivers a simple and easy-to-use system that leverages the power of technology to deliver better meals with less time and cost to school districts through:

COMPREHENSIVE DATABASE

Instant access to a full database with 1,000s of commonly used foods.

INSTANT COMPLIANCE CHECK

All foods included in the database have already been cleared for USDA compliance.

EASY DOCUMENTATION

Meal planning that instantly documents student choice for better future meals.

MENU PLANNING

The ability to extract anticipated menu usage for demand planning and forecasting.

USDA APPROVED SOFTWARE

Cartwheel is USDA approved allowing for easy and instant submittal of Administrative Review.

FOOD SUPPLY TRACKING*

Point of sale systems, inventory management and commodity forecasting to simplify the supply chain.

**This feature is currently under development and will be rolled out in future iterations of the Cartwheel program.*

result:

Cartwheel brings better school lunches to your fingertips, leveraging technology to create efficiency and connectivity in the system, resulting in:

BETTER LUNCHES

HAPPY, HEALTHY STUDENTS

COST SAVINGS
